

Exerciții Lab 1 MAP - Florentin (JAVA)

1. Write "Hello World" in the console
2. Read a string, integer and float from the console
3. Find Largest and Smallest Number in an Array
4. Implement a simple inheritance using `Square` (length, width, area()) and `Cube` classes and then calculate the area of a cube.
5. Create an `Employee` class (Name, Age, Salary, Position). Implement methods to set the values. Create 2 employees and display the objects
6. Find and discuss naming conventions in Java
